Your trusted source for New, Used and rebuilt truck parts since 1940

Differentials

Ask about a **ratio swap** to maximize fuel economy by gearing your truck to its **sweet spot** and fit the way you drive.

Over 600 units in stock ready to get you back to work. Easiest core policy around. Find out how we earn your business!

Thompson motors is one of the few independent rebuilders still around. Years of experience, huge inventory, large and loyal customer base are just a few reasons we continue to offer the best value around check out our offerings in differential options.

Reman units. We take exchange units or cores and rebuild them starting with a new ring & pinion, Complete bearing kit, all thrust washers and critical wear components are replaced. We then install these components in thoroughly inspected and cleaned cases. Only journeymen rebuilders touch our differentials so you are assured the best of the best with these units. These units carry a 1 year unlimited mileage warranty. Which covers parts and labor to replace the unit.

Rebuilt units. We take good used differentials from our salvage yard or ratio swaps and rebuild them with a Complete bearing kit, all thrust washers and critical wear components are replaced. We then install these components in thoroughly inspected and cleaned cases. These units carry a 1 year warranty that covers the replacement of the part only, no labor charges will be allowed unless it is a defect that shows up in the first 10 days.

Good used inspected units. Units from our salvage yard that look like they were just getting started. We inspect these units and sell only those that meet the standards of one of our rebuilders for reusability. Nice clean units that offer a real savings for you. These units carry a 30 day replacement part warranty only.

Custom rebuilding. Just like our transmission department if we don't have a unit we can rebuild yours on the spot. We have the parts and know how to get it done right. Maybe rebuild your own high mileage differentials in a planned manner rather than a road emergency repair we are ready to help. Custom repair units from low mileage applications to further offer you a real value.
